HOW TO APPLY HULL NUMBERS

1. Clean surface of yacht using a cloth and methylated spirits.
2. If required, line up White Square onto yacht and secure with masking tape along the top side of square.

3. Lift up square and begin to peel off backing paper from the top of the square.

Good Luck in your Regatta

Removing Hull Numbers after the Race

4. Remove Bow numbers by peeling the vinyl from one corner. If you do it slowly and carefully it should peel off in one piece. If there is any residue on the hull use a cleaning solution recommended for your Hull type.
